This scholarship would help me obtain my educational goal because doing this scholarship would help me find a career later in life that I could enjoy with the degree I get, and also getting this scholarship would help me later on in life to become independent and have my own business, and since I especially want to give back to my family and community. With my professional goals, having this scholarship would help me network with other people, be able to afford new skills without having to worry about college debts and loans as much, And become an expert in my career. Overall this scholarship would help me achieve both my educational and goals because it would put less pressure on me to help pay for college and would give me more room to help further improve my education and professional career.

Attending college is important to me for achieving what I want to aspire because I want my family to be proud of me, Provide for my family, travel the world, do a career that I enjoy doing, and make a lot of money doing it, going independent, and network with a lot of people. For me to do that I have to go to college, work hard, get my bachelor's degree, and experience opportunities on campus. Overall going to college will give me a step towards my goals. Especially since Covid- 19 came It's been hard for me and my mom because, it caused my mom to be unemployed her nursing job, Being unemployed made my mom not provide as much for me as she usually would with her nursing job for example buying food, providing me with the internet to do my work online, Clothes, and books that I would need for school. Losing her job makes it harder to provide for me and herself financially. Having this scholarship would help my mom pay for college and it would be easier for her to provide for me when I need it for college, for example, a book for college, new Laptop transportation, etc. This could also make it easier for me because I could help my mom pay for college during and after I graduate from college and having this scholarship would help put less strain on us financially for college.

Getting this scholarship would mean a lot to me because I would be able to make my peers, Family, teammates while also accomplishing my goals without the fear of having to worry about having to help my mom pay for college and it is that much of a financial burden to her. Without this scholarship, I don't think I would be able to focus on other opportunities.
